

ANDRES LEPAGE, Ph.D., P.E., S.E., FACI

Professor
Director of Laboratories
Civil, Environmental & Architectural Engineering
The University of Kansas
School of Engineering
2150 Learned Hall, 1530 W. 15th St.
Lawrence, KS 66045
Phone: 785-864-6848, Fax: 785-864-5631, E-mail: alepage@ku.edu

EDUCATION

Ph.D., Civil Engineering, 1997
University of Illinois, Urbana-Champaign, Illinois

M.S., Civil Engineering, 1991
Universidad Simón Bolívar, Caracas, Venezuela

B.S., Civil Engineering, 1987
Universidad Rafael Urdaneta, Maracaibo, Venezuela

PROFESSIONAL REGISTRATION

S.E., Registered Structural Engineer, 2003 – Present
State of Washington

P.E., Registered Professional Engineer, 1998 – Present
State of Washington

P.E., Registered Professional Engineer, 1987 – Present
Venezuela

HONORS AND AWARDS

Miller Professional Development Award for Research (2019), School of Engineering, The University of Kansas.

ENR Top 25 Newsmakers in 2018 (2019), Engineering News-Record, BNP Media, Manhattan, New York.

Chair's Council Associate Professor (2018), Department of Civil, Environmental and Architectural Engineering, The University of Kansas.

Miller Professional Development Award for Research (2015), School of Engineering, The University of Kansas.

Outstanding Faculty Award (2013), Earthquake Engineering Research Institute (EERI) and Structural Engineers Association (SEA) Student Chapters, College of Engineering, Penn State University.

Fellow (2007), American Concrete Institute.

Teaching Excellence Award (1990), Universidad Católica Andrés Bello, Caracas, Venezuela, Civil Engineering Class of 1990.

Academic Excellence Award (1988), Universidad Rafael Urdaneta, Maracaibo, Venezuela, Decade-Best Grade Point Average, Special Award Celebrating the 10th Anniversary of the School of Civil Engineering.

ACADEMIC EXPERIENCE

Professor and Director of Laboratories (July 2019 – Present)

Department of Civil, Environmental and Architectural Engineering
The University of Kansas, Lawrence, Kansas

Associate Professor and Director of Laboratories (July 2015 – June 2019)

Department of Civil, Environmental and Architectural Engineering
The University of Kansas, Lawrence, Kansas

Associate Professor (August 2013 – June 2015)

Department of Civil, Environmental and Architectural Engineering
The University of Kansas, Lawrence, Kansas

Assistant Professor (January 2006 – June 2013)

Department of Architectural Engineering
Penn State University, University Park, Pennsylvania

Adjunct Professor (March 2000 – June 2000)

Department of Civil and Environmental Engineering
Seattle University, Seattle, Washington

Research Assistant (January 1995 – September 1996)

School of Civil Engineering
Purdue University, West Lafayette, Indiana

Teaching Assistant (January 1993 – December 1994)

Department of Civil and Environmental Engineering
The University of Illinois, Urbana-Champaign, Illinois

Adjunct Professor (July 1991 – December 1991)

Department of Civil Engineering
La Universidad del Zulia, Maracaibo, Venezuela

Adjunct Professor (July 1989 – December 1989)

Department of Civil Engineering
Universidad Católica Andrés Bello, Caracas, Venezuela

TEACHING EXPERIENCE

A. Department of Civil, Environmental and Architectural Engineering, The University of Kansas, Lawrence, Kansas, August 2013 – Present

Undergraduate:

CE 563 – Design of Reinforced Concrete Structures

Graduate:

CE 761 – Matrix Analysis of Framed Structures

CE 864 – Seismic Performance of Structures

B. Department of Architectural Engineering, Penn State University, University Park, Pennsylvania, January 2006 – June 2013

Undergraduate:

AE 124S – Introduction to Architectural Engineering

AE 402 – Design of Concrete Structures for Buildings

AE 431 – Advanced Concrete Design for Buildings

AE 481W – Comprehensive Architectural Engineering Senior Project I (Co-Taught)

AE 482 – Comprehensive Architectural Engineering Senior Project II (Co-Taught)

Graduate:

AE 530 – Computer Modeling of Building Structures

C. Department of Civil and Environmental Engineering, Seattle University, Seattle, Washington, March 2000 – June 2000

Undergraduate:

CEEGR 221 – Mechanics of Materials I

D. Department of Civil and Environmental Engineering, The University of Illinois, Urbana-Champaign, Illinois, January 1993 – December 1994

Graduate:

CE 398SA – Structural Analysis Special Topics (Computer Laboratory Sessions)

E. Department of Civil Engineering, La Universidad del Zulia, Maracaibo, Venezuela, July 1991 – December 1991

Undergraduate:

Reinforced Concrete I

F. Department of Civil Engineering, Universidad Católica Andrés Bello, Caracas, Venezuela, July 1989 – December 1989

Undergraduate:

Reinforced Concrete I

RESEARCH EXPERIENCE

Selected Research Projects

1. Title: *Development of Hooked, Headed, and Straight Bars in Compression*
Sponsor: CRSI Education and Research Foundation
Budget: \$90,000
Date: January 2020 – August 2022
(Co-Principal Investigator)
2. Title: *Development Length and Splice Strength of High-Strength Reinforcing Bars in High-Strength Concrete*
Sponsor: CRSI Education and Research Foundation, Commercial Metals Company, Nucor Corporation
Budget: \$330,000
Date: January 2020 – December 2022
(Co-Principal Investigator)
3. Title: *Splicing, Coupling, and Anchorage of Large High-Strength Steel Reinforcing Bars in Earthquake-Resistant Structures*
Sponsor: Electric Power Research Institute
Budget: \$650,000
Date: January 2020 – December 2023
(Co-Principal Investigator)
4. Title: *Development of Large High-Strength Headed Reinforcing Bars*
Sponsor: Charles Pankow Foundation, ACI Foundation, BarSplice Products, Dextra, Headed Reinforcement Corporation, Pentair, and CRSI Education and Research Foundation
Budget: \$380,000
Date: August 2018 – August 2021
(Co-Principal Investigator)
5. Title: *Cyclic Response of Concrete Coupling Beams Reinforced with High-Strength Steel Bars – Phase II*
Sponsor: MMFX Technologies Corporation
Budget: \$20,000
Date: June 2017 – May 2018
(Principal Investigator)
6. Title: *Investigating Mechanical Splicing of Reinforcing Steel*
Sponsor: Electric Power Research Institute
Budget: \$49,994
Date: January 2017 – October 2017
(Co-Principal Investigator)

7. Title: *Reinforced Concrete Coupling Beams with High-Strength Steel Bars*
Sponsor: Charles Pankow Foundation
Budget: \$150,000
Date: January 2017 – February 2019
(Principal Investigator)
8. Title: *Deformation Capacity of Concrete Structural Walls Reinforced with Grade 100 Steel Bars*
Sponsor: CMC Steel Arizona
Budget: \$50,000
Date: September 2016 – March 2018
(Principal Investigator)
9. Title: *Deformation Capacity of Concrete Structural Walls Reinforced with ASTM A1035 Steel Bars*
Sponsor: MMFX Technologies Corporation
Budget: \$55,000
Date: July 2016 – December 2017
(Principal Investigator)
10. Title: *Cyclic Response of Concrete Coupling Beams Reinforced with High-Strength Steel Bars – Phase I*
Sponsor: MMFX Technologies Corporation
Budget: \$20,000
Date: February 2016 – August 2017
(Principal Investigator)
11. Title: *High-Strength Steel Bars in Reinforced Concrete Walls: Influence of Mechanical Properties of Steel on Deformation Capacity*
Sponsor: Charles Pankow Foundation
Budget: \$112,000
Date: November 2014 – April 2017
(Principal Investigator)
12. Title: *Use of Headed Bars as Shear Reinforcement*
Sponsor: Electric Power Research Institute
Budget: \$400,000
Date: August 2014 – August 2017
(Co-Principal Investigator)
13. Title: *Guide for Limit Design of Reinforced Masonry Walls*
Sponsor: The NCMA Education and Research Foundation
Budget: \$149,941
Date: August 2012 – December 2013
(Principal Investigator)

14. Title: *Flexural Strength and Deformation Capacity of Concrete Beams, Columns, and Walls Reinforced with High-Strength Reinforcement*
Sponsor: Applied Technology Council (ATC)
Budget: \$21,000
Date: September 2011 – September 2013
(Principal Investigator)
15. Title: *Cyclic Response of Concrete Members Reinforced with Advanced High-Strength Steel*
Sponsor: SAS Stressteel, Inc.
Budget: \$73,209
Date: January 2011 – December 2012
(Principal Investigator)
16. Title: *Limit Analysis for Limit Design of Reinforced Masonry Walls*
Sponsor: The NCMA Education and Research Foundation
Budget: \$72,766
Date: August 2010 – July 2012
(Principal Investigator)
17. Title: *Development of Structural Engineering Analysis and Design Method and Experimental Evaluation of Bolt-A-Blok Masonry Wall Systems for Residential and Commercial Buildings – Phase II*
Sponsor: Bolt-A-Blok, Inc.
Budget: \$60,000
Date: February 2010 – December 2011
(Co-Principal Investigator)
18. Title: *Limit Design of Special Masonry Shear Walls Used as the Primary Seismic Force-Resisting System in Buildings – Development of Trial Designs*
Sponsor: KPFF Consulting Engineers.
Budget: \$15,000
Date: October 2010 – June 2010
(Principal Investigator)
19. Title: *Development of Guidelines for Structural Engineering Analysis and Design of Bolt-A-Blok Masonry Wall Systems – Phase I: Wall Component Design*
Sponsor: Bolt-A-Blok, Inc.
Budget: \$55,000
Date: January 2009 – June 2009
(Co-Principal Investigator)
20. Title: *Limit Design of Special Masonry Shear Walls Used as the Primary Seismic Force-Resisting System in Buildings – Development of Code Change Proposal*
Sponsor: KPFF Consulting Engineers.
Budget: \$15,000
Date: January 2009 – September 2009
(Principal Investigator)

Graduate Student Supervision**Ph.D. Students**

1. A. Almarshad, *Structural Health Monitoring Strategies Using Traditional Sensors and Computer Vision*, Ph.D. in Civil Engineering, The University of Kansas, completed Oct. 2020. (Co-Chair)
2. A. S. Weber-Kamin, *Reinforced Concrete Coupling Beams with High-Strength Steel Bars*, Ph.D. in Civil Engineering, The University of Kansas, completed Aug. 2020. (Chair)
3. S. Ameen, *Cyclic Response of Concrete Coupling Beams Diagonally Reinforced with High-Strength Steel Bars*, Ph.D. in Civil Engineering, The University of Kansas, completed Dec. 2018. (Co-Chair)
4. E. A. Burgos, *Earthquake-Resistant T-Shaped Concrete Walls with High-Strength Reinforcement*, Ph.D. in Civil Engineering, The University of Kansas, completed Aug. 2018. (Chair)
5. M. S. Huq, *High-Strength Steel Bars in Earthquake-Resistant T-Shaped Concrete Walls*, Ph.D. in Civil Engineering, The University of Kansas, completed July 2018. (Co-Chair)
6. H. Tavallali, *Cyclic Response of Concrete Beams Reinforced with Ultrahigh Strength Steel*, Ph.D. in Architectural Engineering, Penn State University, completed Aug. 2011. (Chair)

Master of Science/Engineering Students

7. E. A. Guillen, (M.C.E), *Use of High-Strength Headed Bars as Shear Reinforcement for Structural Concrete (Report)*, The University of Kansas, completed Dec. 2018. (Chair)
8. A. Almarshad, *Building Drift Estimation Using Acceleration and Strain Measurements (Thesis)*, Master of Science in Civil Engineering (M.S.), The University of Kansas, completed March 2017. (Co-Chair)
9. B. S. Frederick, *Evaluation of Limit Design for Earthquake-Resistant Masonry Walls (Thesis)*, Master of Science in Architectural Engineering (M.S.), Penn State University, completed July 2014. (Co-Chair)
10. K. Tretiakova, *Cyclic Response of Concrete Columns Reinforced with SAS 670 Steel Bars (Thesis)*, Master of Science in Architectural Engineering (M.S.), Penn State University, completed Aug. 2013. (Chair)
11. R. E. Sanchez, *Limit Design of Earthquake-Resistant Masonry Walls (Thesis)*, Master of Science in Architectural Engineering (M.S.), Penn State University, completed Aug. 2012. (Chair)
12. S. J. Pfund, *Cyclic Response of Concrete Beams Reinforced with ASTM A1035 Grade 120 Steel Bars (Thesis)*, Master of Science in Architectural Engineering (M.S.), Penn State University, completed Aug. 2012. (Chair)

13. J. Wiest, *Judicial Center Annex in Rockville, MD (Honors Thesis)*, Master in Architectural Engineering (M.A.E.), Penn State University, completed May 2012. (Chair)
14. H. Ota, *Experimental Study of Mortarless Post-Tensioned Masonry Walls and Development of Design Guidelines (Thesis)*, Master of Science in Architectural Engineering (M.S.), Penn State University, completed Aug. 2011. (Co-Chair)
15. K. Gromowski, *Papadakis Integrated Sciences Building at Drexel University, Philadelphia, PA (Honors Thesis)*, Master in Architectural Engineering (M.A.E), Penn State University, completed May 2011. (Chair)
16. J. M. Shoemaker, *Acceleration Response of Rigid and Flexible Nonstructural Components in Buildings Subjected to Strong Ground Motions (Thesis)*, Master of Science in Architectural Engineering (M.S.), Penn State University, completed Dec. 2010. (Chair)
17. J. Sethachayanon, *An Experimental Study of Autoclaved Aerated Concrete Lintels Strengthened with Externally Bonded Glass FRP (Project)*, Master of Engineering in Architectural Engineering (M.Eng.), Penn State University, completed Dec. 2009. (Co-Chair)
18. K. McKitish, *Redesign of House of Sweden in Georgetown, Washington, D.C. (Honors Thesis)*, Master in Architectural Engineering (M.A.E), Penn State University, completed Dec. 2009. (Chair)
19. M. W. Hopper, *Analytical Models for the Nonlinear Seismic Response of Reinforced Concrete Frames (Thesis)*, Master of Science in Architectural Engineering (M.S.), Penn State University, completed Dec. 2009. (Chair)
20. L. Lynch, *Redesign of Aquablue at the Golden Mile in Hato Rey, Puerto Rico (Honors Thesis)*, Master in Architectural Engineering (M.A.E), Penn State University, completed May 2009. (Chair)
21. A. Bradford, *Optimization of Building Systems and Processes for the Center for Science and Medicine in New York City (Honors Thesis)*, Master in Architectural Engineering (M.A.E), Penn State University, completed May 2008. (Chair)
22. M. Longenecker, *Alternative Lateral-Resisting Systems for Whiteland Village in Exton, PA (Honors Thesis)*, Master in Architectural Engineering (M.A.E), Penn State University, completed Dec. 2007. (Chair)

Visiting Scholar Supervision

1. S. Delgado, Project Title: *A Method for Damage Control of Earthquake-Resistant Reinforced Concrete Moment Frames*, Ph.D. Candidate at Universidad de los Andes (Mérida, Venezuela), Visiting Scholar at Penn State University, Aug. 2007 to Sep. 2008. (Co-Chair)

Technical Presentations

1. Lee, H.-J., Lin, J.-X., Lequesne, R. D., and Lepage, A. (2020). "Bond of High-Strength Reinforcement in Joints of Earthquake-Resistant Concrete Moment Frames", ACI Summer Virtual Sessions, June 3. (Presented by Lequesne)
2. Lee, H.-J., Lin, J.-X., Lequesne, R. D., Lepage, A., and Wang, J.-C. (2019). "Experimental Study on Minimum Interior Joint Depth for Special Moment Frames with High-Strength Reinforcement and Concrete," 21st Japan-Korea-Taiwan Joint Seminar on Earthquake Engineering for Building Structures (SEEBUS 2019). Hsinchu, Taiwan, December 7. (Presented by Lee)
3. Almarshad, A., Li, J., and Lepage, A. (2019). "Drift Estimation of Building Structures under Nonstationary Wind Using Sensor Data Fusion," 9th International Conference on Structural Health Monitoring of Intelligent Infrastructure (ISHMII-9). St. Louis, Missouri, August 6. (Presented by Almarshad)
4. Lepage, A. (2019). High-Strength Bars as Concrete Reinforcement in Structural Bars: From Research to Building Codes. Invited Lecture, National Center for Research on Earthquake Engineering (NCREE) at National Taiwan University, Taipei, Taiwan, July 25. (Presenter)
5. Lepage, A. (2019). "Upcoming Changes to Building Code Requirements for Reinforced Concrete," The University of Kansas Civil, Environmental and Architectural Engineering Professional Development Series, Kansas City, Missouri, March 3. (Presenter)

6. Schultz, A. E., Matamoros, A., and Lepage, A. (2018). "From Acceleration to Velocity for Displacement," A Session to Remember Mete Sozen, 11th U.S. National Conference on Earthquake Engineering, Los Angeles, June 28 [Presented by Schultz]
7. Suwal, A., Matamoros, A., and Lepage, A. (2018). "Performance of a Nonductile RC Building for the FEMA P695 Far-Fault Ground Motion Data Set," A Session on Retrofit of Concrete Structures, 11th U.S. National Conference on Earthquake Engineering, Los Angeles, California, June 27 [Presented by Matamoros]
8. Huq, M. S., Burgos, A. E., Lequesne, R. D., and Lepage, A. (2018). "High-strength steel bars in T-Shaped concrete walls," A Session on Recent Findings in High-Strength Steel and Engineered Cementitious Composites, 11th U.S. National Conference on Earthquake Engineering, Los Angeles, California, June 28 [Presented by Lequesne]
9. Ameen, S., Weber-Kamin, A. S., Lequesne, R. D., and Lepage, A. (2018). "Diagonally-reinforced concrete coupling beams with high-strength steel bars," A Session on Recent Findings in High-Strength Steel and Engineered Cementitious Composites, 11th U.S. National Conference on Earthquake Engineering, Los Angeles, California, June 28 [Presented by Lequesne]
10. Lepage, A. (2018). "Upcoming Changes to Building Code Requirements for Reinforced Concrete," The University of Kansas Civil, Environmental and Architectural Engineering Professional Development Series, Kansas City, Missouri, April 23. [Presenter]
11. Lepage, A. and Lequesne, R. D. (2018). "High-Strength Steel in Structural Concrete: From Research to Building Codes," 63rd Annual Structural Engineering Conference, The University of Kansas Civil, Environmental and Architectural Engineering, Lawrence, Kansas, March 1. [Presenter]
12. Yasso, S., Lepage, A., Darwin, D., Lequesne, R., and O'Reilly, M. (2017). "Development Length of Straight Bars in Tension Using High-Strength Materials," American Concrete Institute, Spring Convention, Detroit, Michigan, March 27. [Presented by Yasso]
13. Suwal, A., Matamoros, A., and Lepage, A. (2017). "Collapse Simulation of Non-Ductile RC Frame Building," 16th World Conference on Earthquake Engineering. Santiago, Chile, January 9-13. [Presented by Matamoros]
14. Matamoros, A., Suwal, A., and Lepage, A. (2016). "Effect of Modeling Parameters on Collapse Simulation of RC Building," 16th U.S.-Japan-New Zealand Workshop on the Improvement of Structural Engineering and Resiliency (ATC-15-15), Nara, Japan, June 27-29. [Presented by Matamoros]

15. Matamoros, A., Suwal, A., and Lepage, A. (2015). "Collapse Simulation of RC Moment Frame Building," 2nd JCI & ACI Joint Seminar, Resilience of Concrete Structures, JCI 50th Anniversary Commemorative Symposium, Tokyo, Japan, July 13. [Presented by Matamoros]
16. Lepage, A. and Dill, S. (2015). "Limit Design of Reinforced Masonry Walls: Design Examples," ASCE/SEI Structures Congress, Track 8: Masonry Topics, Portland, Oregon, April 25. [Presented by Dill]
17. Lepage, A. and Dill, S. (2015). "Limit Design of Reinforced Masonry Walls: A New Seismic Design Alternative," ASCE/SEI Structures Congress, Track 8: Masonry Topics, Portland, Oregon, April 25. [Presenter]
18. Cheng, M. Y., Lequesne, R., and Lepage, A. (2014). "Deformation Capacity and Strength of RC Frame Members Constructed with High-Strength Materials," American Concrete Institute, Fall Convention, J. K. Wight Honoring Session: A Tribute from His Students and Colleagues, Washington, D. C., October 27. [Presented by Cheng]
19. Lepage, A. and Dill, S. (2014). "Limit Design of Reinforced Masonry Walls," The Masonry Society Annual Meeting, General Session, Scottsdale, Arizona, October 11. [Presenter]
20. Kelly, D. J., Lepage, A., Mar, D., Restrepo, J. I., Sanders, J. C., and Taylor, A. W. (2014). "Use of High-Strength Reinforcement for Earthquake-Resistant Concrete Structures," 10th U.S. National Conference on Earthquake Engineering, Anchorage, Alaska, July 21-25. [Presented by Kelly]
21. Dill, S., Lepage, A., Frederick, B., and Hochwalt, J. (2014). "Limit Design of Earthquake-Resistant Masonry," 9th International Masonry Conference, Guimarães, Portugal, July 7-9. [Presented by Dill]
22. Lepage, A. (2014). "Limit Design of Masonry," The University of Kansas Civil, Environmental and Architectural Engineering Professional Development Series, Kansas City, Missouri, April 14. [Presenter]
23. Kelly, D. J., Lepage, A., Mar, D., Restrepo, J. I., Sanders, J. C., and Taylor, A. W. (2013). "Use of High-Strength Reinforcement for Earthquake-Resistant Concrete Structures," American Concrete Institute, Fall Convention, Hot Topic Session: High-Strength Reinforcing Bars—Balancing Design Requirements with Achievable Material Properties, Phoenix, Arizona, October 20. [Presented by Kelly]
24. Lepage, A. (2012). "Flexural Strength of Beams, Columns, and Walls with High-Strength Reinforcement, and Required Usable Strain," Workshop on Use of High-Strength Reinforcement in Seismic Applications, Sponsored by ATC-98 Project Technical Committee, Applied Technology Council, San Francisco, California, November 8. [Presenter]

25. Lepage, A. (2011). "Deformation Capacity of Special Reinforced Masonry Walls Using Limit Design," Webinar on the Proposed Provisions for New MSJC Appendix on Masonry Limit Design, Sponsored by the Masonry Standards Joint Committee (MSJC), July 18. [Presenter]
26. Tavallali, H., Lepage, A., Rautenberg, J., and Pujol, S. (2011). "Drift Limits of Concrete Frame Members Reinforced with High-Performance Steel Bars and Fibers," 6th Workshop on High-Performance Fiber Reinforced Cement Composites, Ann Arbor, Michigan, June 20. [Presenter]
27. Lepage, A., Dill, S., Haapala, M., and Sanchez, R. E. (2011). "Seismic Design of Reinforced Masonry Walls: Current Methods and Proposed Limit-Design Alternative," 11th North American Masonry Conference, Minneapolis, Minnesota, June 6. [Presented by Haapala]
28. Lepage, A., Shoemaker, J. M., and Memari, A. M. (2011). "Demands on Nonstructural Components during Nonlinear Seismic Response of Multistory Structures," Architectural Engineering Conference, Oakland, California, April 1. [Presented by Shoemaker]
29. Tavallali, H., Lepage, A., Rautenberg, J., and Pujol, S. (2011). "Cyclic Response of Concrete Frame Members Reinforced with Ultrahigh Strength Steel," ASCE/SEI Structures Congress, Las Vegas, Nevada, April 16. [Presented by Tavallali]
30. Rautenberg, J., Pujol, S., Tavallali, H., and Lepage, A. (2011). "Cyclic Response of Concrete Frame Members Reinforced with Ultrahigh Strength Steel," Structural Engineering Graduate Student Seminars, Penn State University, Department of Civil Engineering, University Park, Pennsylvania, March 22. [Presented by Tavallali]
31. Tavallali, H., Lepage, A., Rautenberg, J., and Pujol, S. (2010). "Ultrahigh Strength Steel: A Viable Option for Seismic Design of Concrete Beams," EERI Student Chapter Speaker Series, Penn State University, University Park, Pennsylvania, December 2. [Presented by Tavallali]
32. Lepage, A., Shoemaker, J. M., and Memari, A. M. (2010). "Demands on Nonstructural Components during Nonlinear Seismic Response of Multistory Structures," Structural Engineering Graduate Student Seminars, Purdue University, School of Civil Engineering, West Lafayette, Indiana, November 23. [Presenter]
33. Zia, P., Ghosh, S. K., Lepage, A., Lubell, A. S., Luttrell, K. A., Mast, R. F., Paulson, C., Russell, H. G., and Sanders, J. C. (2010). "ITG-6: High-Strength Reinforcing Bar," American Concrete Institute, Fall Convention, Special Technical Session, Pittsburgh, Pennsylvania, October 24. [Presented by Zia]

34. Rautenberg, J., Pujol, S., Tavallali, H., and Lepage, A. (2010). "Cyclic Response of Concrete Members Reinforced with High-Strength Steel," American Concrete Institute, Fall Convention, Special Technical Session, Pittsburgh, Pennsylvania, October 26. [Presenter]
35. Lepage, A., Dill, S., Haapala, M. W., and Sanchez, R. E. (2010). "Design of Special Reinforced Masonry Shear Walls: Current Methods and Proposed Limit-Design Alternative," The Masonry Society's 2010 Annual Meeting, General Session, Bellevue, Washington, October 16. [Presenter]
36. Rautenberg, J., Pujol, S., Tavallali, H., and Lepage, A. (2010). "Cyclic Response of Concrete Columns Reinforced with High-Strength Steel," 9th U.S. National and 10th Canadian Conference on Earthquake Engineering, Toronto, Canada, July 27. [Presented by Rautenberg]
37. Tavallali, H., Lepage, A., Rautenberg, J., and Pujol, S. (2009). "Behavior of Ultrahigh Strength Steel Reinforced Concrete Members Subjected to Large Deflection Reversals," American Concrete Institute, Fall Convention, Special Technical Session, New Orleans, Louisiana, November 9. [Presented by Tavallali]
38. Lepage, A. and Delgado, S. A. (2008). "A Shot in the Dark: Use of Nonlinear Dynamic Analysis for Computing the Seismic Response of Reinforced Concrete Structures," Structural Engineering Graduate Student Seminars, Penn State University, Department of Civil Engineering, University Park, Pennsylvania, April 9. [Presenter]
39. Lepage, A. and Delgado, S. A. (2008). "Optimal Hysteresis Model Parameters for the Seismic Response of Reinforced Concrete Frames," American Concrete Institute, Spring Convention, Special Technical Session, Los Angeles, California, March 31. [Presenter]

"High-Strength Concrete in Moderate to High Seismic Applications (ACI ITG 4)," American Concrete Institute, Fall Convention, Special Technical Session, Denver, Colorado, November 7. [Presented by Ghosh]
41. Lepage, A. (2006). "The Consulting Engineer," Major Night - Real World Workshop, National Society of Black Engineers, Penn State University, School of Engineering, October 10. [Presenter]
42. Boggs, D. and Lepage, A. (2006). "Wind Tunnel Methods," American Concrete Institute, Fall Convention, Special Technical Session, San Francisco, California, October. [Presented by Boggs]
43. Lepage, A., Neuman, S. L., and Dragovich, J. J. (2006). "Practical Modeling for Nonlinear Seismic Response of RC Wall Structures," 8th U.S. National Conference on Earthquake Engineering, San Francisco, California, April 20. [Presenter]

44. Warden, B., Browning, J., Matamoros, A., and Lepage, A. (2006). "Correlating Nonlinear Response with Approximate Linear Analysis," 8th U.S. National Conference on Earthquake Engineering, San Francisco, California, April 19. [Presenter]
45. Lepage, A., Aschheim, M., and Senescu, R. (2004). "Shear-Yielding Steel Outriggers for High-Rise Construction," 13th World Conference on Earthquake Engineering, Vancouver, Canada, August. [Presenter]
46. Matamoros, A., Garcia, L. E., Browning, J., and Lepage, A. (2004). "Flat-Rate Design Method for Low- and Medium-Rise RC Structures," American Concrete Institute, Fall Convention, Special Technical Session, San Francisco, California, October. [Presenter]
47. Hueste, M. B. D., Browning, J., Lepage, A., and Wallace, J. W. (2004). "Performance Based Seismic Design Criteria for Slab-Column Connections," American Concrete Institute, Fall Convention, Special Technical Session, San Francisco, California, October. [Presented by Hueste]
48. Lepage, A. (2004). "Seismic Design Using the 2003 IBC and ASCE 7-02," Structural Engineers Association of Washington (SEAW), Engineering Seminar, SEAW Earthquake Engineering Committee, Seattle, Washington, October. [Presenter]
49. Lepage, A. and Hochwalt, J. (2002). "A Practical Approach for Addressing the Deformation Compatibility of Flat Slabs," American Concrete Institute, Spring Convention, Special Technical Session, Detroit, Michigan, April. [Presenter]
50. Lepage, A. (1998). "Response of an Instrumented Seven Story Reinforced Concrete Building to Ground Motions," American Concrete Institute, Spring Convention, Special Technical Session, Seattle, Washington, April. [Presenter]

PROFESSIONAL AFFILIATIONS AND SERVICES

Memberships

1. The Masonry Society (TMS)
Member since 2008
2. Consortium of Universities for Research in Earthquake Engineering (CUREE)
Member 2013 – 2016 (The University of Kansas)
Member 2006 – 2013 (Penn State University)
3. American Institute of Steel Construction
Member since 2006
4. Structural Engineers Association of Washington (SEAW)
Member since 2003
5. Honor Society of Phi Kappa Phi
Member since 1997

6. Earthquake Engineering Research Institute (EERI)
Member since 1993
7. American Society of Civil Engineers (ASCE)
Member since 1992
8. American Concrete Institute (ACI)
Fellow since 2007
Member since 1983

Service to the Profession**Technical Committees**

1. Architectural Engineering Institute (AEI)
 - Committee on Seismic Effects on Nonstructural Components
Vice-Chair, 5/2012 – 12/2014
2. NEHRP Consultants Joint Venture
 - ATC 115 Project Technical Committee, Roadmap for the Use of High-Strength Reinforcement in Reinforced Concrete Design
Main Committee, 5/2014 – 12/2014
 - ATC 98 Project Technical Committee, Use of High-Strength Reinforcement in Earthquake-Resistant Concrete Structures
Main Committee, 9/2011 – 3/2014
3. Network for Earthquake Engineering Simulation (NEES)
 - NEES Users Forum, Member, 7/2010 – 12/2013
 - NEESComm Earthq. Reconnaissance Team, 2010 Chile Earthq., 3/2010 – 11/2010
4. American Institute of Steel Construction (AISC)
 - Adhoc Task Group on High-Strength Steel, Voting Member, 8/2017 – 12/2019
 - Task Committee TC5, Composite Design, Voting Member, 1/2008 – Present
5. The Masonry Society (TMS)
 - TMS 402/602, Building Code Requirements and Specification for Masonry Structures, Main Committee, Voting Member, 2016 – Present
 - TMS 402/602, Building Code Requirements and Specification for Masonry Structures, Seismic Subcommittee, Voting Member, 2016 – Present
 - Research Committee, M.S. Theses and Ph.D. Dissertations Competition
Voting Member, 8/2014 – 9/2015
 - TMS 402/602, Building Code Requirements and Specification. for Masonry Structures, Flexure-Axial-Shear Subcommittee, Corresponding Member, 2013 – 2016
 - TMS 402/602, Building Code Requirements and Specification for Masonry Structures, Seismic Subcommittee, Corresponding Member, 2008 – 2016
 - Ductility Task Group, TMS 402/602 Seismic Subcommittee
Voting Member, 10/2007 – 12/2010

6. American Concrete Institute (ACI)
 - Voting Member in Committees
 - ACI 318 Struct. Conc. Bldg. Code (Main), 7/2019 – Present
 - ACI 318B Struct. Conc. Bldg. Code (Anchorage and Reinf.), 7/2019 – Present
 - ACI 318H Struct. Conc. Bldg. Code (High-Strength Steel), 7/2019 – Present
 - ACI 318R Struct. Conc. Bldg. Code (High-Strength Steel), 10/2014 – 7/2019
 - ACI CAP-SC3 Award for Papers in Structural Research, 2/2012 – 8/2013
 - ACI ITG-6 High-Strength Steel Reinforcement, 6/2007 – 8/2010
 - ACI CAP-SC1 Awards for Papers in Construction, 1/2006 – 6/2006
 - ACI PUBS Publications Committee (Board Appointment), 1/2005 – 4/2011
 - ACI 314 Simplified Design of Concrete Buildings, 10/2004 – Present
 - ACI 318H Structural Concrete Building Code (Seismic), 10/2004 – 10/2014

7. Structural Engineers Association of Washington (SEAW)
 - Concrete Task Group, Chair, 1/2003 – 12/2005
 - Earthquake Engineering Committee
 - Corresponding Member, 1/2006 – Present
 - Voting Member, 7/1998 – 12/2005

Editorships and Manuscript Reviews

1. Journal of Architectural Engineering, Editorial Board Member, American Society of Civil Engineers (ASCE), 9/2019 – Present
2. International Journal of High-Rise Buildings, Editorial Board Member, Council on Tall Buildings and Urban Habitat (CTBUH), 7/2011 – Present
3. Journal Papers – Peer Reviewer
 - Design Guides, American Institute of Steel Construction (AISC)
 - Earthquake Spectra (EERI)
 - Engineering Structures (Elsevier)
 - Structural Journal, Special Publication, and Concrete International (ACI)
 - Structural Journal (ASCE)
 - The Masonry Society Journal (TMS)

4. Conference Papers – Peer Reviewer
 - 14th Canadian Masonry Symposium, 2021
 - 13th North American Masonry Conference, 2019
 - Architectural Engineering Institute Conference, 2013
 - Architectural Engineering Institute Conference, 2011
 - 6th Intl. Conf. on Innovation in Architecture, Eng., and Construction, 2010
 - 9th U.S. National and 10th Canadian Conf. on Earthquake Eng., 2010
 - 8th U.S. National Conference on Earthquake Engineering, 2006
5. Grant Review Panels
 - ACI Foundation Concrete Research Council, Member of Review Panel for Research Proposals, Spring 2017
 - ACI Foundation Concrete Research Council, Member of Review Panel for Research Proposals, Spring 2014
 - National Science Foundation, Member of Review Panel for Program Solicitation NSF 08-519, Network for Earthquake Engineering Simulation Research (NEESR), 2008

Organizing Conferences and Other Activities

1. Journal of Architectural Engineering, Best Paper Award Committee, American Society of Civil Engineers (ASCE), February - March 2020.
2. ATC 116 Masonry Workshop, “Solutions to the Issue of Short-Period Building Performance,” External Reviewer, September 2018.
3. New Appendix for the 2013 Building Code Requirements and Specification for Masonry Structures: Limit Design Method for Special Reinforced Masonry Shear Walls (Main Author), July 2011.
4. Chile-Earthquake Research Needs Workshop, Leader of Break-Out Session (Group 8), Organized for the U.S. National Science Foundation by the Earthquake Engineering Research Institute, Arlington, Virginia, August 19, 2010.
5. Member of Advisory Panel for NIST-Sponsored Research Project “Performance-Based Design of Reinforced Masonry Shear Walls,” May 2010 to June 2013.
6. Chair of Seismic Conversion Task Group, Reorganization of “Building Code Requirements for Structural Concrete (ACI 318-14), Version 1.0,” Conversion of ACI 318-08 Chapter 21 to ACI 318-14 Chapter 18. January 2010.
7. ACI Special Technical Session on Recent Developments in Seismic Evaluation and Rehabilitation of Concrete Buildings (Co-Organizer and Moderator), Sponsored by ACI Committee 369 on Seismic Repair and Rehabilitation, American Concrete Institute, ACI 2008 Spring Convention, Los Angeles, California, April 2, 2008.
8. Member of ACI Committee 318 Ad-hoc Task Group for Overall Review of Proposed Seismic Code Provisions in ACI 318-08 (Building Code Requirements for Structural Concrete and Commentary), February – April 2007.

9. External Reviewer for Proposed Changes to ACI 318-05 (Building Code Requirements for Structural Concrete and Commentary) by Subcommittee 318-D (Flexure and Axial Loads), February 2007.
10. External Reviewer for Proposed Changes to ACI 318-05 (Building Code Requirements for Structural Concrete and Commentary) by Subcommittee C (Serviceability/Safety), February 2007.
11. ACI Special Technical Session on New Frontiers in Shear Design (Co-Organizer and Moderator), Sponsored by ACI-ASCE Joint Committee 445 on Shear and Torsion, American Concrete Institute, ACI 2006 Fall Convention, Denver, Colorado, November 7, 2006.
12. Collaborator with Academic Council for Preparation of Problems for the NCEES Architectural Engineering Professional Licensure Exam (AE/PE). Prepared and submitted seven peer-reviewed problems for use in the AE/PE exam, August 2006.

Service to Institutions**The University of Kansas****Department of Civil, Environmental and Architectural Engineering**

1. KU 65th Structural Engineering Conference, Moderator, Spring 2020.
2. CEAE Graduate Studies Committees, Spring 2019 – Present.
3. CEAE Sabbatical Committee Member, Fall 2018 – Present.
4. CEAE Laboratory Technologist Search Committee Chair, Laboratory Technologist Position, Spring 2018.
5. CEAE Laboratory Technologist Search Committee Chair, Laboratory Technologist Position, Summer 2016 – Fall 2016.
6. CEAE Laboratory Coordinator Search Committee Chair, Laboratory Coordinator Position, Spring 2016 – Summer 2016.
7. CEAE Faculty Search Committee Chair, Professor of Practice in Structural Engineering Position, Fall 2015 – Spring 2016.
8. CEAE Director of Laboratories, Summer 2015 – Present.
9. CEAE Architectural Engineering Steering Committee Member, Spring 2015 – Present.
10. CEAE Faculty Search Committee Member, Structural Faculty Positions, Fall 2014 – Spring 2015.

11. Guest lecture, ARCE 101 Introduction to Architectural Engineering, "The Structures Option in Architectural Engineering," Fall 2014 – Fall 2016.
12. CEAE Undergraduate Recruitment Committee Member, Fall 2014 – Present.
13. CEAE Curriculum Committee Member, Fall 2014 – Present.
14. CEAE Scheduling and Planning of Graduate Structural Engineering Courses, Edwards Campus, Fall 2014 – Present.
15. CEAE Scheduling and Planning of Undergraduate and Graduate Structural Engineering Courses, Lawrence Campus, Fall 2014 – Present.
16. Faculty Co-Advisor to the Earthquake Engineering Research Institute (EERI) Student Group, Fall 2014 – Present.
17. KU 59th Structural Engineering Conference, Moderator, Spring 2014.
18. KU Structural Engineering Conference Steering Committee Member, Fall 2013 – Present.
19. CE 191 Guest lecture, "Introduction to Structural Engineering", Fall 2013 – Present

School of Engineering

1. Engineering Senate Executive Committee, Spring 2019 - Present
2. Judge for the SELF Senior Capstone Presentations, Spring 2016
3. Judge for the SELF Engineering Leadership Fellows, Spring 2016
4. Faculty Rights, Privileges, and Responsibilities Committee, Summer 2015 – Summer 2018.
5. Judge for the 8th Annual GEA Poster and Presentation Competition, Graduate Engineering Association, April 16, 2015.
6. Judge for the 7th Annual GEA Poster and Presentation Competition, Graduate Engineering Association, April 10, 2014.

University Level

1. Judge for the 2015 Graduate Research Competition, Poster Presentations, Office of Graduate Studies, April 9, 2015.

2. Fulbright Scholars Evaluation and Interview Committee
Fall 2014 – Fall 2015.

Penn State University

Department of Architectural Engineering

1. Climate and Events Committee Member,
Spring 2008 – Spring 2012.
2. English Proficiency Doctoral Candidacy Exam Committee Member,
Fall 2007 – Spring 2012.
3. Faculty Advisor, Student Organization of the Architectural Engineering Institute (AEI), Formerly Student Society of Architectural Engineers (SSAE), Fall 2007 – Spring 2008.
4. Guest lectures, AE 124S Architectural Engineering Orientation, “The Structures Option in Architectural Engineering,” Semester (# lectures):
Fall 2006 (4); Spring 2007 (2); Fall 2007 (4); Spring 2008 (2); Fall 2008 (4); Spring 2009 (2); Fall 2009 (4); Spring 2010 (2); Fall 2010 (4); Spring 2011 (2); Fall 2011 (4).
5. Structural Depth Doctoral Candidacy Exam Committee Member,
Fall 2006 – Spring 2012.
6. Structural Breadth Doctoral Candidacy Exam Committee Member,
Fall 2006 – Spring 2012.

College of Engineering

1. College of Engineering Faculty Council Member,
Fall 2009 – Spring 2012.
2. Faculty Search Committee Member for Dept. of Civil and Environ. Eng.,
Fall 2007 – Spring 2008.
3. College of Engineering Open House, Dept. of Architectural Eng., Coordinator,
Fall 2007 – Fall 2009.

INDUSTRY EXPERIENCE

- A. KPFF Consulting Engineers Inc., Seattle, Washington**
Associate, July 1998 – December 2005
- B. Andersen Bjornstad Kane Jacobs Inc., Seattle, Washington**
Project Engineer, October 1996 – June 1998
- C. Servicios de Ingeniería en Microcomputadoras SRL., Caracas, Venezuela**
Project Engineer, September 1987 – December 1991

Selected Industry Projects

1. *Sea-Tac Rental Car Facility (2006)*
Project Consultant – KPFF Consulting Engineers, Inc.
Three 5-story buildings provide 2.1 million square feet to accommodate parking for 5,400 vehicles and office/commercial spaces. The reinforced concrete post-tensioned floor system typically consists of 5.25-in. one-way slab spanning 18 ft over beams spanning 60 ft. The beams frame into 36-ft long girders supported by 32-in. square columns with a typical clear height of 10-ft. Beams and girders are typically 24-in wide by 35.25-in. deep. Every column line (on a 36 ft by 60 ft grid) is used as part of the seismic force-resisting system designed as post-tensioned special moment frames without shear walls. Modern seismic design criteria were developed to supplement the rudimentary design provisions contained in the building code for this type of system, first of its kind in the West Coast.
2. *Olive 8, Seattle, Washington (2005)*
Project Engineer – KPFF Consulting Engineers, Inc.
The first LEED certified hotel/condo building in Seattle. The 39-story mixed-use tower includes a 349-room five-star hotel and 198 residential condominiums. The hotel occupies the first 17 floors while the condos the top 22. There are five levels of underground parking. The elevated floor slabs consist of reinforced concrete two-way flat plates. The lateral system consists of reinforced concrete structural walls (core walls) without moment frames. The design and permit of the lateral system required special peer review to evaluate the nonlinear response of the building when subjected to ground motions representative of the 2500-year seismic event.
3. *Fred Hutchinson Cancer Research Center, Seattle, Washington (2002)*
Project Engineer – KPFF Consulting Engineers, Inc.
A series of state-of-the-art research facilities included the *Cancer Care Alliance Building*, a seven-story superstructure with 150,000 square feet of treatment space, as well as a four-story basement with 147,000 square feet of parking and mechanical space; the *Administrative Building*, a 203,000-square-foot structure with six levels of office space and four levels of below grade parking; and the *Public Health Sciences Building*, a 500,000-square-foot building with three underground levels and five stories of office space above grade. The lateral force-resisting systems combine eccentric and/or concentric steel braced frames with special reinforced concrete shear walls. The buildings were designed using performance-based design to attain immediate occupancy during the 475-year seismic event.
4. *Sammamish Parkplace, Issaquah, Washington (1998)*
Project Engineer – KPFF Consulting Engineers, Inc.
Two office buildings, each six-story high, provide 1.1 million square feet of office space. Additionally, two separate parking structures provide space for more than 1800 cars. The floor construction for both office buildings consists of two-way post-tensioned concrete flat slabs. The floors for both parking structures combine post-tensioned one-way slabs and long-span beams. Lateral loads in all four structures are resisted by special reinforced concrete shear walls proportioned and detailed using displacement-based design.

5. *Harbor Steps North Towers, Seattle, Washington (1997)*

Project Engineer – Andersen Bjornstad Kane Jacobs, Inc.

Two high-rise residential towers, one 13 stories above ground, the other 29 stories. The structural floor system consists of two-way post-tensioned concrete flat slabs. The lateral force-resisting system for the 13-story tower uses stand-alone special reinforced concrete shear walls around a central core. The 29-story tower uses a dual system with “skipped moment frames”, which combines interior concrete shear walls with exterior special moment-frames using beams at every other floor to restrain the columns.
